 HomeControl+
Wireless Security

DeJAY
ROYALE

Control your home security from anywhere in the world

The HomeControl+ is a highly secure wireless security solution that delivers top of the range security, with on-the-go control from anywhere in the world on your smart device.

Set and unset areas, check event history, check the status of every sensor on your system and receive notifications through the HomeControl+ App.

Also, by adding the internal pan and tilt or external static HomeControl+ Cameras, you can watch live HD video streaming of your property from anywhere.

Installation could not be easier or less intrusive, with no wires or cables there is no need to drill through walls, lift floorboards or move furniture. The HomeControl+ delivers both maximum security and convenience for any home or business.

HomeControl+ Wireless Security

- Wireless system
- Security sensors
- Smoke, CO & water safety sensors
- live streaming cameras
- HomeControl+ App on iOS & Android
